What is Pactap?

With the vision to revolutionize the packaging industry, Pactap was launched with the objective to provide end-to-end packaging solutions. We aim to enhance buyer experience through effective tech intervention.

> One Stop Solution

With Pactap's tech-enabled platform, a buyer has an access to multiple products, simplifying the product selection process.

> Streamlining the Buying Process

Pactap seeks to create a global platform to seamlessly link the buyers and manufacturers, making the buying process more seamless and cost-effective.

Paper Bags

Paper bags are the perfect option for environmentally conscious brands since they are recyclable, renewable, and compostable. Pactap offers a wide range of paper bags that can easily be customized depending upon the requirement. Paper bags are prominently used in the retail and food delivery sector.

Non-Woven Bags

Non-woven bags are exceptionally lightweight, energy efficient to produce, and durable. They allow better utility in the real-world scenario. Polypropylene spun bond non-woven bags provide superior tensile strength for greater durability and are reusable, easy to clean, recyclable, and do not release any toxic gas or chemical while being disposed off.
